

Theory and Practice of Path Integral Control

June 2026, Hiroshima University

Instructor: Takashi Tanaka (Purdue University)

Assignments

Deadline: Friday, July 3

Submit a written report to tanaka16@purdue.edu

Theory

Following exercises from the lecture notes

- Exercise 6.1
- Exercise 6.4
- Exercise 6.5
- Exercise 8.1

Lecture notes are available at

https://github.com/tx-tanaka/kl_control_assignments/tree/main/lecture%20note

Submit written responses (hand-written or typed).

Coding

- Assignment1_Ch6.pdf
- Assignment2_Ch7.pdf (Replaced June 25)
- Assignment3_Ch8.pdf

PDF files can be found at:

https://github.com/tx-tanaka/kl_control_assignments/tree/main/assignments

In interest of time, you may skip the “implementation” sections of the coding assignments. (Complete and executable codes are prepared and are already available on GitHub.)

Submit written responses to experiment questions.
